Software Engineer with a B.Tech in Computer Science (2024) and 2+ years of hands-on experience at Technovel and XenonStack, specializing in frontend development and scalable web applications, seeking SDE or Frontend roles.

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University, *B.Tech with Computer Science* | Lucknow, India 2020-2024

St. Joseph Inter College, *Senior High School and High School (Science with Computer)* | Lucknow, India 2016-2020

EXPERIENCE

Technovel , Associate Software Engineer | On-Site | Lucknow, India 07/2023 – 2/2026

- Built responsive and scalable frontend components using Nextjs, React.js, JavaScript, HTML, Tailwind CSS and CSS.
- Worked with Firebase and MySQL databases for data integration, and deployed projects using Firebase Hosting and traditional web hosting platforms.
- Contributed to projects and team-based coding challenges to enhance logical thinking and collaborative development.
- Gained hands-on experience with modern development tools, version control using Git, and Agile methodologies through practical tasks.

XenonStack , Associate Software Engineer trainee | Remote 02/2024 – 04/2024

- Engaged as an Associate Software Engineer Intern, completing practical assignments and contributing to mini-projects to build development skills.
- Actively collaborated with team members, worked on frontend tasks using ReactJS, and explored tools like Firebase, Git, and Agile methodology.

SKILLS

Technical Skills: NextJS, TypeScript, ReactJS, JavaScript, HTML5, CSS3, PHP, Python, Java, C/C++, Git, GitHub, REST API, React Redux, Tailwind CSS.

Databases & Tools: MySQL, MongoDB, SQLite, phpMyAdmin, Firebase Hosting, Netlify, Postman, VS Code.

Others: MS Word, MS Excel, MS PowerPoint, Agile Methodology, Team Collaboration, Time Management, Presentation Skills.

PROJECTS

RCI | E-Commerce Web App

- Developed RCI Product, an advanced e-commerce platform, enabling clients to effortlessly sell products online.
- Utilized ReactJS and state management libraries to create a responsive user interface for enhanced user experience.
- Integrated Razorpay payment gateway for secure transactions, alongside robust backend managed with SQL databases via PHPMyAdmin.

UPMTS | G20 Government Event Web App | https://upmtsweb.web.app/

- Developed and deployed responsive React.js web applications for UPMTS and the G20 Government Event, serving as the public-facing digital platform for Uttar Pradesh's state-level medical tourism initiatives.
- Implemented robust registration and contact forms, powered by Email.js for seamless server management.
- Showcased cutting-edge CSS for visually captivating and user-friendly interfaces.
- Attained top search engine rankings for crucial keywords like “UPMTS” and “ Uttar Pradesh Medical Tourism Summit ”.

Samara wellness hotel | Hotel Web app | https://samarawellnessweb.web.app/

- Designed and developed the complete frontend using ReactJS and CSS, building a clean and responsive user interface from scratch.
- Integrated RESTful APIs for dynamic content rendering and coordinated with the backend team and client to ensure seamless functionality.
- Took ownership of UI/UX flow, making improvements based on feedback and real-world usability.

Other Project

- Delivered and contributed to numerous real-world projects, focusing on UI development, API integration, and clean, maintainable code.
